Subject : Final Election Results – WSU Convocation AGM

The elective AGM was held at WSU Convocation on June 25, 2022. The election for a new executive committee took place during the AGM processes. The results announcement was planned to take in two stages, with the preliminary results coming from the online election agency (announced already) and the final results being validated by the Independent Audit Firm (SNG Grant Thornton), in accordance with the established Election Rules (herewith announced).

The Independent Audit Firm has certified the preliminary findings as accurate (28 June 2022). The Office of the University Registrar got a court order prohibiting the announcement of election final results just before announcement, which caused the announcement to be delayed. The case has been dropped, which the court officially announced on July 7, 2022.

The Office of the University Registrar is happy to release the following **final election results** in light of these recent developments:
